

# Census Of Staff Providing Library Services To NHS Personnel, December 1985

## Kronos Helps Stamford Hospital Optimize Staffing to Meet Budget and Productivity Targets

Kronos for Healthcare | CASE STUDY

**EMPLOYEES:** 2,700

**INDUSTRY:** Healthcare

**PRODUCTS:**

Workforce Timekeeper  
Kronos scheduling  
- Workforce Target Intelligence™  
- Workforce Workload Manager™

Stamford Hospital in Stamford, Connecticut, is a 305-bed, not-for-profit hospital that provides residents in Fairfield and Westchester counties with access to the latest medical technology, as well as a compassionate, patient-centered approach to care. The hospital's particular areas of expertise include cancer care, heart services, orthopedics, and women's health. Stamford Hospital is an affiliate of the New York-Presbyterian Healthcare System and is a major teaching affiliate of the Columbia University College of Physicians and Surgeons. The hospital employs 2,700, including medical and support staff.

### CHALLENGES

- Patient census volatility and declining patient numbers required greater accuracy in quantifying demand in order to staff cost-effectively
- With patient census and workload intensity information reported only at the end of each month, units missed their nursing staffing targets
- Lack of real-time patient census and acuity data didn't allow managers to adjust staffing to reflect this information or to meet budget

### SOLUTION

- A Kronos scheduling, staffing, and workload that provides real-time patient data that helps nurse managers and leadership adjust staffing to mirror patient census and workload intensity

### BENEFITS

"Kronos workload, productivity, and scheduling systems provide the tools to better

Census of Staff Providing Library Services to NHS as at December to obtain up-to-date data on staffing Of these staff, (66%) had more than.Census of Staff Providing Library Services to NHS.
