**What we expect to happen over the next couple of days**

You can expect your child to be tired and grizzly and this is often most noticeable when the temperature is high. They should also perk up in between times and play for a bit. The improvement times should increase as the body rids itself of the infection and they should get back to normal eating and drinking and playing. Make an appointment with your GP if fevers persist for more than five days.

## People you can contact are:

GP Surgery on .....  
(Please insert your own surgery number here)

GP Out of Hours: (After 6.30pm and before 8am). Ring 111 and you can speak to a doctor. If necessary, your child can be seen at one of their centres.
